The Buyer asserts that they have adequate facilities to care for the Puppy including a fenced yard or other responsible plan to provide a safe environment for exercise, and agrees to provide reasonable care and concern for the Puppy, providing adequate food, socialization, shelter, and routine veterinary care. Failure to adequately provide for the Puppy's welfare, such as but not limited to failure to provide sufficient nutritious foods or to provide a reasonably safe and enriched environment, voids any and all guarantees for replacement.

This Puppy must be spayed or neutered between their 2nd and 3rd birthdays. Buyer further agrees to not use this Puppy to sire or whelp any litters (unless a breeding prospect puppy was purchased).

1. The Buyer agrees to have a licensed veterinarian spay or neuter this Puppy at their own expense between the Puppy's 2nd and 3rd birthdays. The Buyer is to provide written proof of sterilization to the Seller, from the veterinarian, by the Puppy's 3rd birthday, unless otherwise agreed upon.
2. If the Puppy is 3 years or older at the time of sale, the Buyer must have the Puppy spayed or neutered and send written proof to Seller within 10 business days of the sale date.
3. The Buyer understands that failure to sterilize the Puppy within the time specified will result in a penalty of \$1,000 to be paid immediately. Failure to properly notify the Seller of the sterilization of the Puppy may result in the same \$1,000 penalty. The buyer will be penalized an additional \$2,000 if the Puppy is permitted to breed as a result of non-compliance with this agreement.

Buyer agrees to vaccinate puppy according to Seller's vaccine protocol. Seller's vaccine protocol is: Puppy will receive their first set of Distemper + Parvovirus vaccine *at approximately 8 weeks of age*. Puppy will receive their second set of Distemper + Parvovirus vaccine 3 to 4 weeks later at 11 to 12 weeks of age. Puppy should receive a third set of Distemper + Parvovirus vaccine 3 to 4 weeks later at 14 to 15 weeks of age. Puppy will receive a 1 year rabies vaccine at 20 weeks of age or older. Puppy will receive Distemper + Parvovirus vaccine booster at the age of 1. 3-4 weeks *after* receiving Distemper + Parvovirus vaccine booster, Puppy will receive a Rabies vaccines booster, good for 3 years. Buyer should perform vaccine antibody titers for distemper and parvovirus every three years thereafter, or more often, if desired. Buyer will vaccinate for rabies virus according to the law, except where circumstances indicate that a written waiver needs to be obtained from the primary care veterinarian. In that case, a rabies antibody titer can also be performed to accompany the waiver request.

This Puppy is guaranteed against development of Hip Dysplasia, as determined by a board certified radiologist acceptable to the Seller, or by radiographic certification by an accredited agency such as PennHIP, OFA etc by the

age of 2 years. The Buyer agrees not to engage in advanced training events with the Puppy that would place undue strain on the growth plates and joints until a minimum of 18 months is attained, or this Hip Dysplasia warranty is voided. Such training would include, but is not limited to, Disc, Agility, Schutzhund, Obedience of CDX level or higher, or any other training regimen which would require the Puppy to repeatedly jump any height above 12" prior to the age of 18 months. It is within the rights of Vanir McNab Shepherds to request a second opinion at the cost of the Buyer, to a veterinarian that is agreeable to both parties, if there is a question of dysplasia or other genetic condition.

This Puppy is further warranted against the development of genetic defects such as Primary Lens Luxation, Degenerative Myelopathy, or heart defects for a term of three years. In the event that this Puppy must be replaced, the Buyer shall have the right to replacement with a puppy of equal value out of the next available litter agreeable to both parties. In such circumstance, the Buyer has the option to either return the original Puppy or neuter/spay it and provide proof of neuter/spay to the Seller before the replacement will occur. Said replacement is the sole remedy of the Buyer; and all necessary transportation costs to affect this replacement are the responsibility of the Buyer.

The Seller asserts that the Buyer has been apprised of the importance of health testing any Puppy intended for breeding purposes. The Buyer agrees never to use the Puppy for breeding unless it has been certified free of Hip Dysplasia. If the Puppy should fail its health clearances and the Buyer should opt to use the Puppy for breeding anyway, Buyer understands that they immediately forfeit the right to any replacement.

In the event of circumstances which would force the Buyer to give up the dog, the Buyer agrees never to surrender the puppy to any animal shelter or rescue organization, instead **Buyer must return the Puppy to the Seller**, who will then arrange for suitable rehoming as possible. The cost of returning the puppy is the sole responsibility of the Buyer.

Deposits are non-refundable. If Buyer placed a deposit on a puppy before it was born, and once the puppies were born the Buyer's desired sex was not available, Seller will hold deposit until next available litter. If Buyer placed a deposit on a puppy before they were born, and Buyer's desired markings, temperament, etc was not available in the litter, Seller will hold deposit until next available litter. If Buyer's puppy passes away before the final sale and pick-up of puppy (was the runt of the litter, couldn't get enough milk, fading puppy syndrome, etc), Seller will hold deposit until next available litter. Seller will take every precaution necessary to ensure the puppy is healthy, well cared for, gaining weight, and eating well prior to the final sale and pick-up of the puppy.

Purchase price of puppy is non-refundable. If Buyer chooses to return the puppy at any age, regardless of reason, the purchase price of the puppy is non-refundable.
