

Project Schedule Verification and Predictability Platform

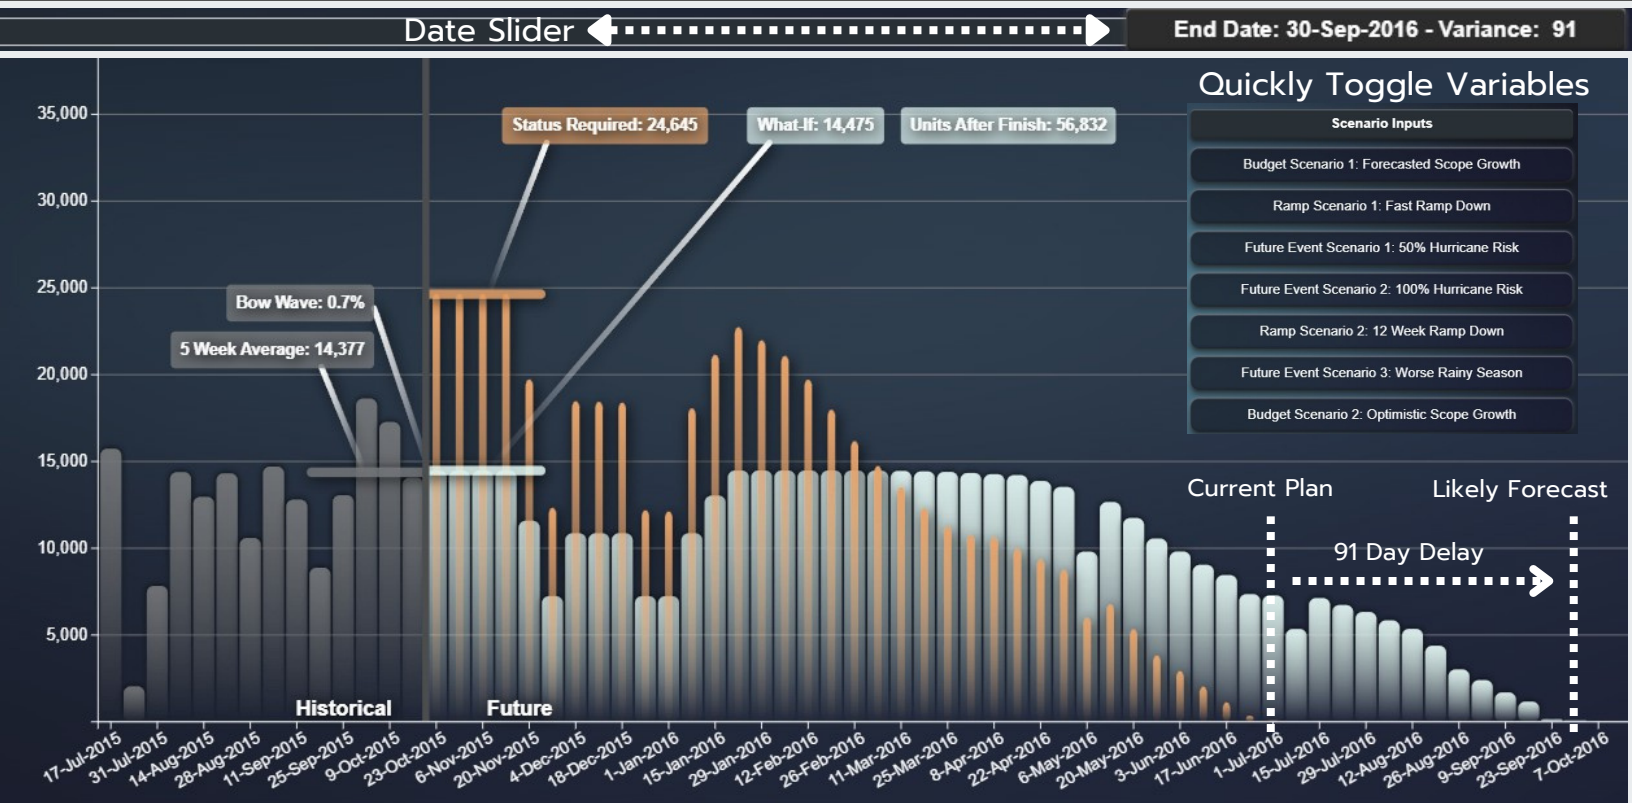

Add a **NEW** Level of Clarity: Forward Redistribution + Instant What-Ifs

PROJECT SCHEDULE(S) + PROGRESS REPORTING + SLIDE DECKS

Combined into the Day1Model platform which:

- Maintains structure of the schedule while allowing the end date to become dynamic through the use of the interactive date slider.
- Enables instant toggling of key variables like scope, productivity trends, and time-phased events such as weather or holidays.

Converts schedules and progress data into dynamic, predictive charts

Starting at \$50,000 USD

Provide your data → we load the model → you see the truth in 2 weeks
Includes 6 weeks of platform access, an exec report, and a live walkthrough.

Email us at: info@day1model.com to get started today.
