Physical Activity and Weight Loss

"At one time, I weighed over 300 pounds...I didn't know it, but I was headed down a dark path. I began learning about the risks of being overweight and sedentary. I didn't want to get diabetes, so I stopped drinking sugary drinks and alcohol. I started eating more fruits and vegetables, walking, and doing strength training. It was tough at first. Eventually, I began to lose weight and look and feel better about myself. I finally lost 100 pounds. Now, I can walk 3 miles in an hour."

Joseph Talley, Diné and Pueblo

Losing weight has many benefits for those who are overweight or affected by obesity. Losing a few pounds can help to:

- ✓ Improve blood sugar
- ✓ Lower blood pressure
- ✓ Manage sleep apnea
- ✓ Prevent diabetes
- ✓ Decrease heart disease risk
- ✓ Ease joint pain and slow joint damage

Increasing physical activity along with eating fewer calories is the most effective way to lose weight.

What Activities Can Help with Weight Loss?

Aerobic Exercise

- » Uses large muscle groups repeatedly for longer periods.
- » Burns the most calories when done at a moderate to vigorous level.

Resistance Exercise

- » Uses weights, exercise bands, or body weight to provide resistance.

Include resistance exercises at least 2 to 3 days a week. See [Increasing Muscle Strength](#) for information.

Casual Activity

- » Includes light intensity physical activities such as:

- Doing laundry
- Yard work
- Removing trash
- Taking the stairs
- Gardening
- Cleaning

Add more movement to your day to contribute to weight loss.

Start at a light or moderate level. Increase to more vigorous activities when cleared by your provider.

TRACK YOUR STEPS

Follow in the Footsteps of Your Ancestors

Our ancestors led active, healthy lifestyles. Tracking steps makes it easy to monitor activity and know if targets are reached. Getting the recommended steps per day can help reduce blood sugar, blood pressure, and body fat.

SET A DAILY STEP COUNT GOAL

Consider your age, health, and fitness level when setting a daily step goal. Consult your health care provider or fitness professional for guidance.

USE A FITNESS TRACKER

- Use a smartphone, smartwatch, or pedometer to track your steps.
- Use the same fitness tracker to monitor and compare your step count.
- Fit smartphones firmly in your pocket for an accurate step count.
- Fit pedometers to your waistband or belt over the mid-line of either leg.

Cell phones and smartwatches automatically reset to zero overnight.

HOW TO SET A STEP GOAL

Track your daily step count for several days before starting your program.

Is your step count below 3,000 per day? If yes, increase to 5,000 steps steadily over 2-3 weeks.

Next, build your step count to at least 8,000 steps per day.

Increase your steps for more health benefits. Getting to 10,000 steps most days of the week is optimal.

A good walking pace is at least 100 steps per minute. One mile is about 2,000 steps.

What's New

New Law & Order Code

On June 27, 2026, Tribal Council adopted Resolution No. 26-06-27-D: Adopting Title 7 (Law & Order Code) of the Chemehuevi Tribal Code.

Updates to Case Numbering

Upon review of the current case file numbering system, Court staff have decided to update the way case files are numbered to ensure quicker and more accurate access to case files.

Domestic Violence Forms

After discussions with other Tribal Courts and Needles District Court, the Chemehuevi Tribal Court is working to update domestic violence forms to ensure communication at all levels for law enforcement purposes.

Hello Tribal Members,

The weather is **HOT! HOT! HOT!**. Highs reaching 117.

The Code Enforcement Department has been paying extra special attention to the tribal beaches south of the casino. These are the beaches that we collect revenue from. We went out the Tuesday after 4 of July Weekend. We collected 6 bags of trash and an old fold up chair. The beach goers and trashbag post are doing their job. The beaches needed very little attention. The Department will continue beach clean up efforts for the rest of the season.

The burros are reeking havoc on our little town. The Code Enforcement Department along with Chairman Leivas are working to bring an emergency round up to the reservation. So be careful when traveling around the reservation.

Just a friendly reminder. Snakes are going to be looking for a cool, damp, place to relax. If you have plants that your watering on your porch or patio. Get them off the ground. If you have any water that drips around your house make sure to watch these areas. They can attract all sorts of critters.

Insects are invading your home. I use a combination of dawn dish soap and water in a spray bottle to combat any insects. This solution will stop the use of harmful chemicals in your home. Ant holes in your yard! Sprinkle some ferina around the hole. Make sure to vacume spider webs. What I do, is in my shop vac, I place a paper towel with bug spray(Raid) on it. When I vacume the webs and spiders up. They make for a easier vacume clean out. No little critters crawling around.

Respectfully Submitted,
Frederick Rivera
Chief Code Enforcement Officer

TRIBAL EMPLOYMENT RIGHTS OFFICE

WHAT DO WE DO?

1

The TERO program enforces tribally enacted American Indian preference law, which ensures American Indians gain their rightful share of employment, training, contracting, subcontracting, and business opportunities occurring on or near reservations.

2

The Chemehuevi Tribal Employment Rights Office (TERO), by virtue of a contractual agreement with the Equal Employment Opportunity Commission (EEOC), is authorized to interview and counsel individuals with potential employment discrimination charges. The TERO employees address draft charges of alleged violations of Title VII, file complaints with the EEOC and attempt to resolve the charge by mediation within 30 days.
