## Demountable Solar Panels

The MyNu Energy Ultimate Accessory

PowerSlide is a deployable solar array built for mobile energy systems, delivering clean generation for construction sites, film production, and remote works.

Integrates with all PowerQub products and compatible with off-grid and hybrid inverter systems.

Towable and compact when folded, allowing easy transport and fast deployment : panels unfold to create large solar array footprint within minutes.

Robust steel frame engineered for Australian site conditions. Simple, low-complexity design with minimal moving parts for maximum reliability.

Two models available: the PowerSlide S and PowerSlide L

## Technical Data

---

Name	PowerSlide-S	PowerSlide-L
Dimensions Stowed	2450mm x 1866mm	4850mm x 2330mm
Dimensions Deployed	3608mm x 5438mm	4850mm x 6300mm
Weight	500 kg	800 kg
Solar Panels	7 x 440 W	12 x 500 W
Total Solar Capacity	3.08 kW	6.0 kW
Maximum Output Current	4 A	8 A
Maximum Daily Energy Production	15 kWh	30 kWh
