**Ram Reg/Quad/Crew/Mega Cab HD CHMSL Cargo Camera Installation Instructions**
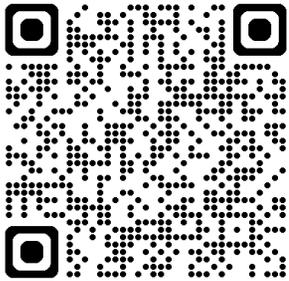

**Items Required for the Installation**

SGW Bypass for 2018+ Ram Trucks (not required for Ram Trucks prior to 2018 model year)
Alfaobd and compatible device to run it on (windows or Android device, does not support IOS)
Obdlink MX+ or any other OBD Scanner compatible with Alfaobd (See www.alfaobd.com for a list)
Radio must be a 2013+ 8.4 Uconnect.  If the radio is a 2013-2015, it must be on software version
17.11.xx.  If the radio is 2016+ then any sofware version should work
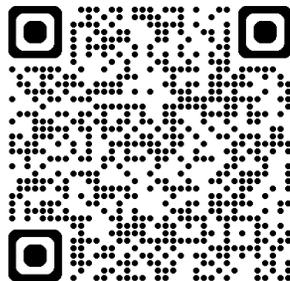

**What's Included:**

| Qty | Item |
|-----|------|
| 1 | Main camera harness |
| 1 | Radio harness (if applicable) |

**Before you get Started:**

Installing SGW bypass (if applicable)

Backing up BCM config

Programming the settings with alfaobd

**Troubleshooting Section**

De-pinning the door connectors
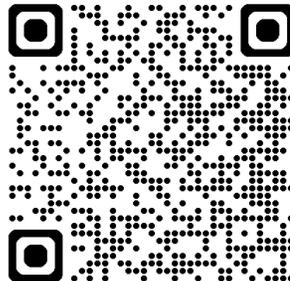

Removing the SGW bypass cable
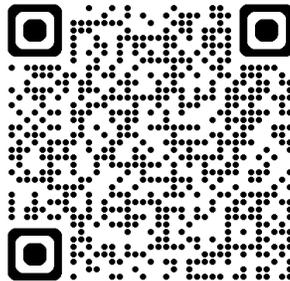

**Installation Steps:**

Walkthrough of the harness to be installed.

Pinning the main camera harness wiring

Pinning wiring to the radio if required

Note:  Depending on the vehicle year, one
of the camera wires pinning location at the green
connector at the end of the dash may vary
