

## TURN-KEY CONSTRUCTION

At Cobéal we are able to mobilize our staff and draw from a pool of experienced contractors to act as your eyes and ears throughout the project, interacting closely with our Project Management team from pre-construction through completion. This includes design and permitting, site work, foundation, delivery/crane/assembly, architectural enhancements, mechanical and electrical, HVAC, fire protection and museum displays and collection procurement.

## GENERAL CONTRACTING

Cobéal offers general contracting with various turn-key solutions to all of your construction needs. As experts in managing construction and installation logistics, we are able to minimize lead times, reduce costs, and assure that everything required for the development of your project is in hand prior to the onset of the construction phase. Our passion for continuous improvement has inspired us to develop some of the most progressive and precise installation processes in the industry.

## SITE CONSTRUCTION

Cobéal provides a variety of construction and installation services with a diverse pool of experienced, knowledgeable contractors. Our staff has been specializing in large scale museum projects since 2004. These services include project management, design and permitting, site work, on-site foundation, delivery/crane/assembly, precast structures, on-site architectural enhancements, on-site mechanical and electrical, HVAC, fire protection and more.
