

Large Capacity

With the addition of our fourth 16' machine and running around the clock, we are able to produce several hundred additional truckloads per year.

Large Inventory

Over 200,000 square feet of warehouse and with over 200 truckloads of inventory in reserve.

Our Own Fleet of Trucks

Our own fleet of trucks and drivers that can deliver direct to you or your customer. Flatbed or van.

Quick Shipping

Because of our reserve inventory and our fleet of equipment, we can get product out the door the same day.

More Than Straw

Besides straw blankets, we manufacture excelsior, coconut and polypropylene blankets as well as wattles and Mighty Fine Straw.

Additional Products

Not just blankets. We offer compressed straw, coir products, stakes, staples, silt fence, geotextiles.

Approvals & Quality

We continuously work on product approvals to ensure that our products are available for use on state and federal projects.

About Us

Beginning in 2003, we started with an 8 foot wide machine and 4 employees. Today we operate four 16 foot machines along with bagging, wattles and silt fence manufacturing.

We pride ourselves on customer service, a quality product, quick shipping and building long term relations.

It is our policy to sell to only distributors. No end users. Our distributors are the frontline and face of EnviroScape ECM.
