

CAPABILITY STATEMENT

PAST PERFORMANCES

Project: Residential Privacy Fence
Location: Dayton, OH

Installed a 6-foot wood privacy fence for a homeowner looking to enhance backyard security and privacy. The job involved full removal of the old chain-link fence, precise post setting, and clean finishing with pressure-treated wood. The project was completed on time and within budget, with a strong focus on quality craftsmanship and customer satisfaction.

Project: Residential Privacy Fence
Location: Trotwood, OH

Built a new 6-foot privacy fence around a residential property to provide separation from a nearby commercial lot. This included custom fitting around landscaping and ensuring the fence matched the neighborhood's aesthetic. The homeowner praised the professional appearance and durable installation.

Project: Concrete Driveway
Location: Dayton, OH

Completed a 20' x 30' concrete driveway for a single-family home, including grading, formwork, and finishing. The project required careful planning to ensure proper drainage and a clean edge where the driveway meets the sidewalk. The end result was a durable and clean-looking driveway that added curb appeal and functionality for the homeowner.
