Cast Profiles

Ryan Merriman

“Baker” has been in law enforcement for the last 13 years, and is haunted by the deaths of his wife and son 3 months earlier. He becomes obsessed with the triple homicide he was investigating prior to the death of his own family and can be unfiltered, often to his detriment.

Ryan was a child actor best known for his work on the Disney Channel. He has grown into an accomplished film and television actor with performances in The Ring 2, Final Destination 3, and Pretty Little Liars. He currently resides in Oklahoma with his wife, Kristen.

Corbin Bernsen

"Dr. Sutton" is a good looking man with an edge. He is the head of orthopedic surgery and has been at the hospital for a year. He has a presence about him that commands respect while at the same time, can also come across as domineering and a bit creepy. He is known as a womanizer throughout the hospital and shamelessly flirts with all females but has a particular interest in Nicole Davis, the head physical therapist.

Corbin made his initial mark on the seminal television series L.A. Law as opportunistic divorce lawyer "Arnie Becker" earning him multiple Emmy and Golden Globe nominations over the show's eight-year run. He proved along the way the role was not to be a dead-end stereotype, maintaining a steady career in both television and film over the course of three decades. Moreover, his intent devotion to his career and love for the craft has compelled him in recent years to climb into the producer/writer, and director's chair.

Cast Profiles

Tonya T. Cannon

"Nicole" is the head of Physical Therapy at the hospital. A week before her wedding, she walks in on the murder of her fiancé and his parents and is then attacked herself. She awakens from a 3 month coma with no memory of the attack and must work with Detectives Baker and Parks in order to find the killer before it's too late.

Tonya is an award winning stage actress and up and comer in the film and television industry since her move to southern California in April of 2014. She has written and produced two feature films as well as a number of short films, all of varying genres. She looks forward to continuing to make her mark in the entertainment industry through writing, producing, and performing.

Tonya is also the creator and Executive Producer of this project!

Larry Lowe

"Parks" has been in law enforcement for 14 years, and has been a detective for the last 7 years. Parks is a "by the book" kind of detective which is why his partnership with Baker has worked so well over the last 6 years. He genuinely cares about his partner and can see that Baker is not doing well with coping with the loss of his family in addition to having the pressure of trying to solve Nicole's case.

Crew Profiles

Mayon Denton – Director

As a student at UCLA, Mayon started his own Production Company, DRG Films. He has produced music videos, commercials, documentaries, TV pilots and feature films. Mayon produced the feature film, *Fingerprints* (2013); the television pilot, *How to Succeed at Birth* (2012) as well as the short film, *Lil Tokyo Reporter* (2012). The latter is a 1935 period piece about a Japanese American activist. "Film making is my passion, my love, and my life. Every aspect of filmmaking fascinates me. The initial idea, which leads to the creative process, the business aspect (the investment/money making side), the way in which a few words can metamorphosize into a screenplay, and finally... The completion of something great, that STORY which can be watched, felt, and embedded into the hearts and minds of its viewers. The storytelling process is truly amazing!"
