

WHAT OTHERS ARE SAYING ABOUT THE QUALITY OF INSTRUCTION AT PRECISION FLYERS...

"Precision Flyers is very thorough. I am continually encouraged to be a better, safer pilot. I am challenged to strive for true proficiency and I enjoy my training. I'm grateful for all that I've learned!"

-Anne C.

"I needed a flight review after a 17 year hiatus. I'm so grateful that Doug is now my flight instructor. He made me feel so comfortable and at ease. Now I'm hooked and can't wait 'til I go up again!"

-Edward W.

"If you want to learn how to fly safely, I would strongly recommend Precision Flyers. The lessons aren't easy, but they are effective! Doug (instructor) has made flying very enjoyable for me, and is making me a safe and competent pilot. He Truly does teach flying with precision!"

-Samuel S.

"The desire to fly is an idea handed down to us by our ancestors who, in their grueling travels across trackless lands in prehistoric times, looked enviously on the birds soaring freely through space, at full speed, above all obstacles, on the infinite highway of the air."

-Wilbur Wright

CERTIFIED FLIGHT INSTRUCTOR

YOU ARE NOW ABLE TO TEACH
AND DEVELOP YOUR PASSION BY
GIVING GROUND AND FLIGHT
LESSONS.

WHAT MAKES PRECISION FLYERS UNIQUE?

We are a Part 61 independent flight school conforming to stringent Part 141 school standards. We use tried-and-true part 141 curriculum and syllabi.

Training is tailored to your schedule and learning style.

The focus is upon YOU unlike many 'puppy mill' flight schools which lack the personal attention.

Offering both in-person and online remote Ground School options to save you time, cost, and driving.

Just like Part 141 programs, we use stage checks and exams to regularly evaluate your training progress.

Precision Flyers are full-time dedicated flight instructors. Not teaching merely to fulfill minimum experience hours, then abandoning your training for an airline job.

Full access to FAA approved and qualified AATD flight simulators.

Interested in leaving your Part 141 flight school? No problem. Get full credit for all of your flight hours!

We partner with flight clubs and independent airplane owners throughout the Valley, offering flexibility on where you train.

By us not having to maintain a specific fleet of aircraft it keeps your training cost within reach.

All aircraft used for training strictly comply with FAA-required airworthiness directives and inspection intervals.

Do you own an aircraft from which you want to train? We can accommodate!

IS FLYING RIGHT FOR ME?

THERE IS A PROFESSIONAL PILOT SHORTAGE! Within the next 20 years, airlines within North America are going to be in need of around 130,000 new career pilots.

There is a drive to get more women involved in aviation. In 2021, Air India was the leading major airline, in terms of female pilots in the world, with roughly 12.7 percent of its pilots being female. Scholarships and grants are available.

Be exclusive. Less than 1/10 of 1% of Americans hold a current pilot certificate!

Is flying safe? Yes! Fact: at any one moment there are approximately 5,400 airplanes flying above our heads in the United States alone!

Whether your goal is the "\$100 Hamburger" or an aviation career, NOW is the best time to start! Contact Precision Flyers TODAY to take off on YOUR aviation adventure!
