

Long lasting Molds
for High Quality Pavers

With an extensive product background, GEMINI IMPIANTI can produce molds for the widest variety of concrete products including architectural, retaining wall, paving stone, traffic boxes

Gemini molds have a longer life offering an extra in-service life from 30% to 100%

Reduced wear is resulting from the combination of custom steel (alloyed with chromium, molybdenum, and nickel) and a proprietary heat treatment process

Heated pressing shoes are also available

 Gemini
Impianti S.r.l.

Gemini knowledgeable staff is eager to work with you and share our combined expertise to develop the best, most effective mold for your product

UNIQUE MOLD DESIGN FOR PRODUCERS WEAR CONTROL

The full bolted design is extended to the form assembly, therefore grid box is replaceable by the customer without any welding
