

Molds for High-end Quality Blocks

With an extensive product background, GEMINI IMPIANTI can produce molds for the widest variety of concrete products including architectural, retaining wall, paving stone, traffic boxes

Gemini molds have a LONGER LIFE offering an extra in-service life from 30% to 100%

REDUCED WEAR is resulting from combination of a custom steel (alloyed with chromium, molybdenum and nickel) and a proprietary heat treatment process

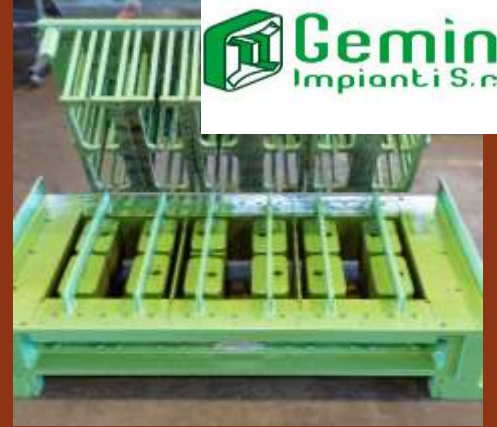

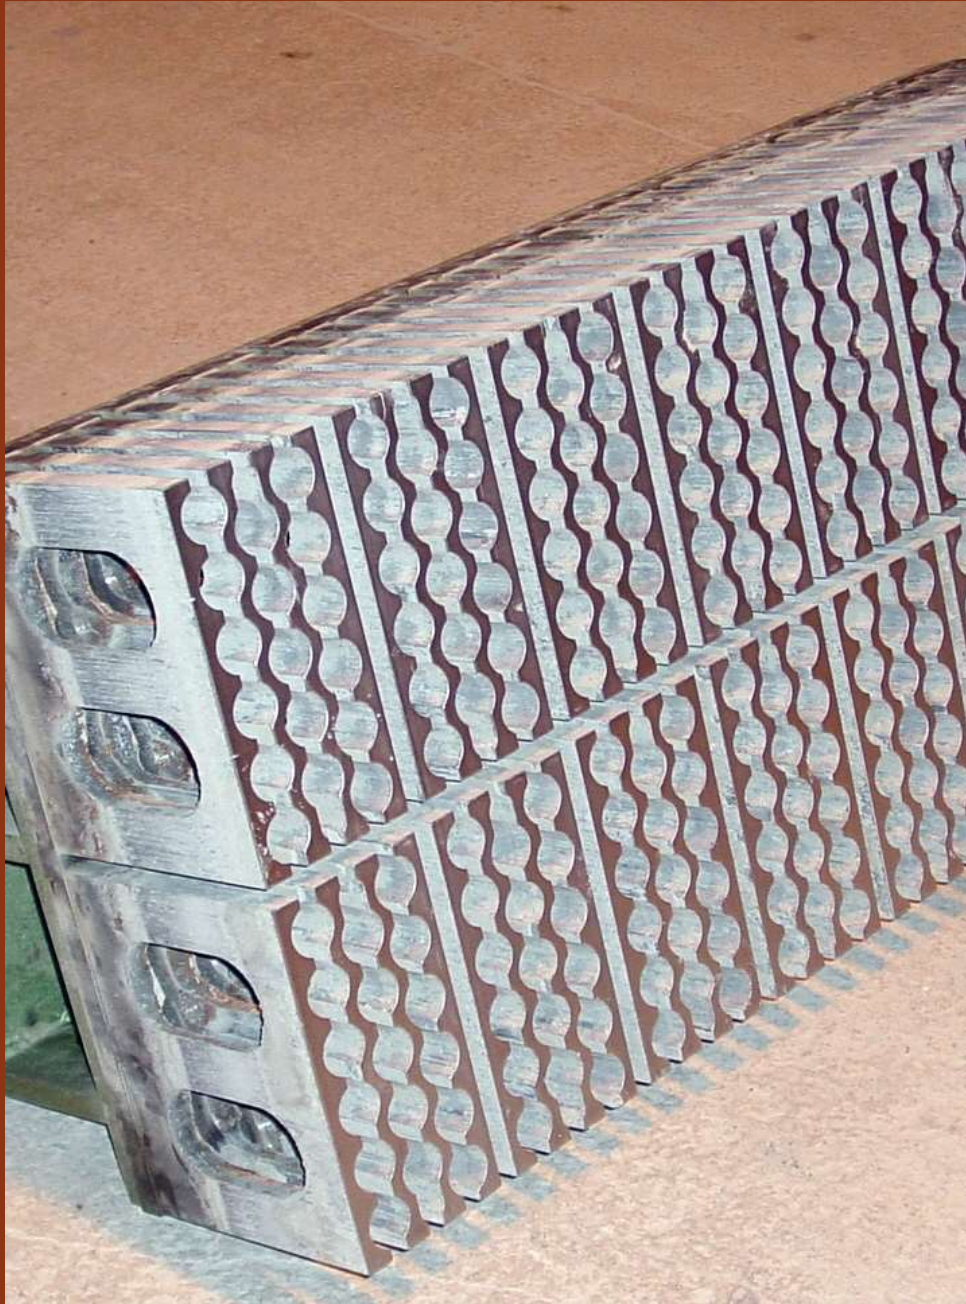

Our knowledgeable sales staff is eager to work with you and share the combined expertise of our company to develop the best, most productive mold for your product

Our block mold has a full bolted design that permits to replace only the worn parts making them very competitive in terms of cost per product.

A High Quality standard with technology and innovation
