

Hello Killer Bees,
Buzz, Buzz.

I am Queen Bee and I Bike for the Bees. I hope you enjoyed my **Bee Battle**.

Now that I have your attention, nuclear energy is being brought to our Hive by a Hijacked Guy. **Cox claims nuclear is good for Utah, but nuclear energy subflety radiates and slowly causes cancer on nearby populations.** Data Centers are not so subtle and amplify EMFs & Entropy at nearby populations and Cox wants to combine them. Have you seen the news on cancer & AI data centers? It's like The Radium Girls. What about PG&E & the Chromium scandal? Well, that's who Meta is recruiting to help nuke Utah with their nuclear data centers.

My Rare California Bee's stung the technocrats and now they're mad and taking it out on all Bees starting with Utah. **If Nuclear Energy is bad for California Bees, it's bad for All Bees.**

<https://www.ans.org/news/article-6541/bees-block-metas-nuclearpowered-data-center/>

Technocrats claim nuclear energy is safe, but **I assure you Nuclear Energy is death in more ways than one** because it emits subtle radiation even through all the "protective measures." It slowly mutates the extremely sensitive methyl group on Human Thymine DNA resulting in cancer. Our Bee Bodies are especially sensitive to electromagnetic frequencies. That is why we are dying.

I was going to use the Bee Ride to release the cure for cancer and needed the 999 numbers. After **the 999 Killer Bees survived and killed My Hive, I told My Little Bee Follower that the world could die**, and I didn't care anymore. That made My Little Bee cry. **My Little Bee gave me a Gift of a Bee & folded my Bee Money into a Bee Heart.** They told me their friend had died of cancer, and I yet have had the cure since March. **They begged on behalf of humanity and the Bees for me to #ChangeMyMind and succeeded.**

The details surrounding why it has been so difficult to get The Cure out to the public is extraneous. **The Portal to Hell has been brought to Heaven's Gate and I need the Killer Bees of the 999 to continue to ride but this time against Nuclear Energy.** For if the Killer Bees of the 999 don't cause a Buzz and Kill Operation Gigawatt both Bees and Humans will die as our shared survival is intertwined.

Ride and Sting On,

Queen Bee

Ps, I'm upgrading my Crown. I hope you enjoyed the souvenir.
