#### SUBJECT: Notification of Excessive Tenant Accounts Receivable

Dear Mr. Alvarez:

Tenant Accounts Receivable (TAR) is an item on the balance sheet reported annually to HUD on your agency's Financial Data Schedule (FDS). It represents tenant rents and other charges that are due but uncollected. As you may already be aware, uncollected rent is lost revenue to your agency, and also causes a significant loss of points on your overall PHAS score. HUD's benchmark for TAR is less than 1.5% of total tenant revenue. Based on your PHA's most current financial information for FYE September 30, 2021, the New Braunfels Housing Authority TAR ratio was recorded as 14.2% uncollected. Under current scoring methodology, a TAR ratio of 2.5% or more would receive zero points in the FYE 2021 PHAS score report TAR sub indicator.

Due to the impact of the eviction moratoria on a PHA's ability to collect rent and manage rent collection activities, PIH notice 2022-02 was issued to help address this issue. The notice provides a temporary TAR scoring methodology for PHAs with fiscal years ending Mar 31, 2022, June 30, 2022, September 30, 2022, and December 31, 2022. For these fiscal years, you may experience temporary relief of current TAR scoring standards which will affect your overall PHAS score. The notice further states that PHAs will receive five points for TAR if their tenant accounts receivable is 80% collected or greater. PHAs that have tenant accounts receivable between 60% and 79% collected will receive two points. PHAs that have tenant accounts receivable below 60% collected will receive zero points.

Under normal circumstances (excluding COVID-19 challenges) poor rent collections often result from unstructured or inconsistently applied rent collection procedures. Reasonable and timely enforcement of rent payment leads to fewer late payments by establishing the agency's expectation of timely payment. A rigorous rent collection procedure does not preclude reasonable allowances for hardship or rent adjustments—both of which are allowed by program rules. It is important to maintain communication with the tenants to best understand any hardships they are facing. While enforcement of rent payment may lead to eviction, it is the experience of this office that fair and predictable enforcement reduces late payments and thus improves housing security for all involved. A suggested timeline for rent collection and enforcement is attached to this notice. Please review it and consider making changes to your policies and procedures.

For any family with an unpaid balance of rent, please secure a reasonable repayment agreement. A written agreement protects both the family and the PHA. Of course, some rents will simply go uncollected. Thus, it is important to work with your fee accountant annually to determine what amount of your TAR is uncollectable and may be eliminated from your books (this

#### Thursday, July 18, 5:15 pm

is commonly referred to as a "write off"). Once the appropriate amount is determined, the Board of Commissioners should adopt a resolution to complete the action. This resolution will permit your fee accountant to reduce the TAR balance. Since TAR is only reported to HUD at year-end, it is advisable to complete this step in the final months of your fiscal year. Please know that writing off an amount does not prevent you from collecting it should that opportunity arise.

This office will follow up in the coming weeks on progress made toward improved rent collection enforcement procedures. Thank you for the work you do at the New Braunfels Housing Authority. Should you have any questions, please contact your Portfolio Management Specialist, William Bowman Jr. at William.BowmanJr@hud.gov or by telephone at 210-475-6834.

Sincerely,

David Pohler

**SUBJECT:** Return of Public Housing Assessment Systems (PHAS) assessments upon expiration of PHAS-related waivers in Notice PIH 2021-14

#### 1. Purpose

This notice:

- Advises Public Housing Agencies (PHAs) that, consistent with <u>Notice PIH 2021-14</u> (HA), PHAS scoring will resume starting with the March 31, 2022, Fiscal Year End (FYE) Cohort; and
- Temporarily adjusts the standard under the Management Assessment Subsystem (MASS) indicator for the Tenant Accounts Receivable (TAR) sub-indicator for the fiscal year 2022 PHAS assessment cycle.

#### 2. Background

The Coronavirus Aid, Relief, and Economic Security Act (<u>CARES Act Public Law 116-136</u>), signed into law on March 27, 2020, provided HUD with broad authority—in the context of the public health emergency—to waive certain statutes and regulations (except for requirements related to fair housing, nondiscrimination, labor standards, and the environment) for the Public Housing program. The CARES Act waivers provided PHAs with the flexibility to adjust program practices where necessary so that when normal operations were restricted or severely constrained, PHAs could prioritize mission critical functions, sustain occupancy, and mitigate the health risks posed by COVID-19 to PHA staff, residents, and communities.

www.hud.gov espanol.hud.gov

One of the CARES Act waivers HUD implemented suspended PHAS assessments for PHAs with fiscal year end dates beginning March 31, 2020, through December 31, 2021. PHAS is the annual assessment process by which HUD fulfills its statutory requirement<sup>1</sup> to assess PHA administration of the Public Housing program. Through PHAS, HUD evaluates indicators—as defined by 24 CFR Part 902—that measure the performance of PHAs. These indicators measure a PHA's physical condition, financial condition, management operations, and Capital Fund obligation and occupancy. Ultimately, the culmination of these indicators establishes a PHAS score, which determines a PHA's designation of High, Standard, Substandard, or Troubled. These designations determine the frequency of PHAS assessments.

The CARES Act waivers enabled HUD to delay PHAS assessments and carry over a PHA's last PHAS score. The most recent PIH CARES Act waiver notice (<u>PIH Notice 2021-14(HA)</u>), published on May 4, 2021, extended the period of availability for most CARES Act waivers through December 31, 2021, including the suspension of PHAS scoring. This period will not be extended. Thus, PHAS assessments will begin again, pursuant to statutory requirements, allowing HUD to make a more accurate, up-to-date determination of a PHA's performance.

Over the last year, HUD has started incrementally transitioning back to normal requirements associated with PHAS. On April 23, 2021, Secretary Fudge issued a letter to PHA Executive Directors, Multifamily Housing Owners, and Property Managers<sup>2</sup> stating that HUD would "substantially increase housing inspections" on June 1, 2021. Upon resuming inspections, HUD implemented various safety protocols to ensure that onsite inspections were operated in a safe and respectful manner in accordance with Centers for Diseases Control and Prevention (CDC) COVID-19 guidance. HUD resumed physical inspections of Public Housing properties on October 5, 2020. As part of these physical inspections, HUD extended the notification period from 14 days to 28 days. In addition, PHAs have resumed inspecting public housing units, and PHAs have continued to submit Financial Data Schedules (FDS) used to calculate the Financial Assessment Sub-system (FASS) Indicator under PHAS.

HUD has reviewed the financial data in FASS and determined that, with the implementation of the new MASS standard to account for TAR described in this notice, many PHAs do not need further modifications to PHAS related to the financial and management indicators. Specifically, HUD analyzed FDS data received for 1,182 PHAs with fiscal year end dates in March and June 2021 to evaluate how FASS and MASS indicators of the PHAS score would change if scores were issued using the TAR sub-indicator as described in this notice. HUD found that 91 percent of PHAs would have an improved or unchanged financial score, and 65 percent of PHAs would have an improved or unchanged management score. In April 2020, the occupancy rate using

HUD's Agency Priority Goal methodology<sup>3</sup> was 95.84 percent and experienced only a slight decline in December 2021 to 94.11 percent. Based on this data, HUD has determined that resuming PHAS scoring will not negatively impact many PHAs.

# 3. Statutory and Regulatory Responsibility to Resume PHAS Scoring and Annual Inspections in FY 2022

PHAS assessment resumes in 2022 with the March 31, 2022, fiscal year end (FYE) cohort. Fiscal year (FY) 2022 assessments will be used by HUD as a baseline, wherein all qualified properties will be inspected under the Uniform Physical Condition Standards (UPCS). The resulting PHAS assessment and performance designation of (a) high, (b) standard, (c) substandard, or (d) troubled performer, will establish the subsequent assessment cycle and inspection interval for PHAs. HUD began UPCS inspections on January 1, 2022, for PHAs with fiscal years ending March 31, 2022. All current troubled agencies will be inspected by June 30, 2022, regardless of FYE, and will receive a FY22 PHAS assessment and designation. The remaining non-troubled agencies will be inspected according to their Fiscal Year End (FYE) cohort.

#### 4. The MASS Indicator for the TAR Sub-Indicator for PHAS Scoring in Fiscal Year 2022

The Public Housing Evaluation and Oversight: Changes to the Public Housing Assessment System (PHAS) and Determining and Remedying Substantial Default ("PHAS Interim Rule"), published on February 23, 2011, at <u>76 FR 10136</u>, became effective for PHAs with FYE March 31, 2011. Scoring for the MASS indicator is described in the Public Housing Assessment System (PHAS): Management Operations Scoring Notice (Management Assessment Subsystem, "MASS Scoring Notice") published on February 23, 2011, at <u>76 FR 10050</u>. The MASS Scoring Notice explains that PHAs can receive up to five points for TAR, which generally measures the performance of a PHA's ability to collect rents and other charges.

The CARES Act included an eviction moratorium through July 31, 2020, and a 30-day notice prior to eviction filings for nonpayment of rent. At the same time, several States and localities issued eviction moratoriums. On September 4, 2020, the Centers for Disease Control (CDC) Director issued an order temporarily halting evictions in the United States due to the ongoing public health crisis. The initial CDC order expired on December 31, 2020, subject to extension, modification, or recission. The Consolidated Appropriations Act, 2021 (Public Law 116-260), extended that order until January 31, 2021, and the original CDC Order was extended multiple times due to the continued national emergency. On August 3, 2021, the CDC Director issued a new order

<sup>&</sup>lt;sup>3</sup> The Agency Priority Goal (APG) for occupancy is a rate based on unit counts. The APG Occupancy rates applies the Capital Fund occupancy rate. The Capital Fund occupancy rate considers offline units as vacant. The MASS occupancy rate considers offline units as occupied. For example: Capital Fund occupancy counts units as occupied when an assisted tenant, employee or law enforcement personnel, non-assisted and special purpose tenant resides in the unit. The MASS occupancy rate excludes units approved by HUD to be offline for capital improvement, resident services, offices, litigation, and others.

temporarily halting evictions for persons in jurisdictions experiencing substantial or high rates of transmission. However, on August 26, 2021, the Supreme Court vacated the stay of a district court decision invalidating the original and new CDC order, holding that the applicants had a substantial likelihood of success on the merits. There have been, and continue to be, effective local and State eviction moratoria related to the ongoing pandemic.

These local, State, and Federal eviction moratoria have had a significant impact on rent collection and ultimately performance under the TAR sub-indicator. For many PHAs, the growth in TAR due to eviction moratoria resulted in an inability to perform usual processes for households who did not pay applicable rental payments during the PHAS assessment cycle. As a result, PHAs may not have been able to manage programs to the standards established in the MASS Scoring Notice for TAR. Further, despite the availability of emergency rental assistance at the local, State, and Federal levels, some jurisdictions-imposed restrictions, and limitations for such funding to reach HUD-assisted families. In these cases, despite efforts by PHAs to support families to apply for such assistance, many HUD-assisted families have not yet been able to receive such assistance. As such, HUD believes that PHAs may not have been able to manage programs to the standards established in the MASS Scoring Notice for TAR.

Due to the impact of the eviction moratoria on a PHA's ability to collect rent and manage rent collection activities, this notice advises that for PHAs with fiscal years ending March 31, 2022, June 30, 2022, September 30, 2022, and December 31, 2022, only, HUD is temporarily revising the scoring methodology for TAR. HUD believes that this temporary adjustment to the scoring notice will appropriately score PHAs for the impact of the eviction moratoria on PHA operations. Specifically, PHAs will receive five points for TAR if their tenant accounts receivable is 80 percent or greater. PHAs that have tenant accounts receivable between 60 percent will receive zero points.
