

HATE CRIME REPORTING & SURVEY

Stop the Hate www.hatecrime.app

Hate Crime and Anti-Social Behaviour affects individuals across diverse communities, it can take many forms including physical, verbal abuse and cybercrimes that impact the targeted communities causing anxiety, distress and harm.

We are working with independent organisations across Kent & Medway to promote a hate crime & anti-social behaviour reporting tool and survey via an online web app which can be accessed at www.hatecrime.app

The app has links to the True Vision and Kent Police online reporting pages via their websites.

It also hosts a survey for feedback on reporting experiences and for incidents that have not been reported to discover the barriers to reporting.

The survey is anonymous and quick to complete by selecting from a choice of answers. The only details you need to enter are the time, date and location (a post code or google map location) of the incident. The results of the survey will inform a report for Kent Police Independent Advisory Group.

**IF YOU WISH TO REPORT A CRIME
OR INCIDENT TO THE POLICE
PLEASE CALL 101 for Non emergency
or 999 for Emergency response**

or use one of the online reporting
options available

Please distribute this tool via your
workplace, social and community
contacts.
