

## THE EMPTY CASSETTE – RECORDER ANALOG. LISTENED TO ANALOG.

Before everything was streamed, it was recorded.

Before playlists were endless, every minute was precious.

**It's back: The empty cassette.**

This makes it possible to listen to music recorded analog in the recording studio at home in analog format without having to convert it to a digital format.

Only Revox offers the consistency of analog high-end from analog music recording to analog playback at home!

Revox has now designed an audio cassette with unique quality and features:

**NEW !!**

Revox Grandmaster Audio Cassette - C60 - Type 1

Revox Grandmaster Audio Cassette - C90 - Type 1

An exclusive 5-point screw-mounted housing designed for Revox with reusable recording locks forms the basis for a durable cassette tape transport. If the recording lock is removed, it is not possible to record on the cassette.

This latest model cassette tape is produced exclusively for Revox.

The excellent analog sound of the new Revox cassette tape is made possible by the legendary Grandmaster formula.

This Revox cassette delivers the best results with the Ferro/Normal Position Type I setting on any cassette player.

The insert card (triple J-card) has plenty of space for labeling, and the included sticker set rounds off the package together with the transparent cassette box (snap box).

Further special features:

- Production in the variants running length C60 and running length C90
- Revox exclusive: legendary Grandmaster Type I (Ferro) cassette tape from current production
- Revox exclusive 5-fold screw-fastened design housing from European production
- Transparent cassette box (snap box)
- Reusable recording lock
- Insert card with 4 labeling fields
- 2 sets of high-quality stickers
- Manufactured at the Revox factory in Villingen

The Revox Grandmaster is now available to order from REVOX | Horch House:
