

Lauren Kuperstein

Working her day job as an accountant at Banfield Pet Hospital since mid 2021, Lauren definitely enjoys the data entry life. She only started getting into dog sports in 2020 after getting Willow, her Pembroke Welsh Corgi, as a way to better work Willow's mind. Since then, Willow has earned 50 AKC titles which include FastCAT, Coursing, Scent Work, temperament, fitness and trick titles, 9 Barn Hunt Association titles, 4 NASDA titles, her ORT with NACSW, 6 UKC titles including her Altered Emerald Grand Championship, all altered conformation championship titles through IABCA with multiple altered best and reserve best in shows, as well as various trick titles through Do More With Your Dog, Dog Talent Association, Universal Canine All Starts and Maslow's University. At 6.5 years old, Willow currently has 133 titles to her name with no signs of stopping any time soon!

Lauren started becoming interested in scent work in 2021, and hasn't looked back since. Even with all the other activities she continues to enjoy with her dog, nose based sports will always be her favorite. She is currently working towards earning the AKC master level titles with Willow, and will see about working towards the detective title once they get to that point. While competing at trials with the PNW Scent Work Club, she kept bugging the previous trial secretary, Phyllis Dinsmore, about how she could help out, and thus started learning the process. Phyllis was extremely grateful to have someone who could help, and as she was looking to wind down her involvement with trials due to external circumstances happening in her life, Lauren was more than happy to take over. At all of the PNW Scent Work Club trials, you can find Lauren either sitting at the computer entering scores, or running Willow in her signature blanket jacket when the weather is cold enough.
