

### **Oluna's Services: Law and Judgement**

#### **Legal**

Please make sure that you, and we, keep everything innocent, legal and ethical so that we can have a peaceful new beginning as Citizens of Oluna.

#### **Judgement**

We are in the middle of Judgement, a prophecy from Earth.

We must send and sentence criminals to Hell and condemn them for their behavior.

#### **Law**

Please redirect any queries that you may have about our new legal system to our helpers in Law.

They have been working tirelessly to keep our Universe together by imposing legislation that is for the safety and security of everyone, especially those who are spiritual, sacred, divine, innocent, important and Gods.

#### **Criminalize**

Please Criminalize all crime around you as we have had a run-in with terrible people such as terrorists, thieves and war mongers.

#### **Evidence**

Accessories to crime will be sent to Evidence immediately for sorting and categorization.

#### **Records**

We will want to collect all of their records.

We must make sure that all of the records rooms and the rescue bubbles (including hell bubbles) are ready to go.

#### **Reports**

We will investigate everything reported, so please Report Crime whenever you see something.

#### **Dungeon Levels**

Please send everyone in the way of the innocents down to the Hell levels. We will take care of them.

#### **Felons**

We are experiencing an invasion of Felons who are criminals which have committed a terrible crime, usually violent. They are military trained and we must watch out for them. We have 'Wanted' signs.

#### **Deranged**

There are people here who are deranged and must be dealt with quickly, they get loony bins and solitary.
