

The Enemy: Liandan

Liandan is an enemy team from millions of years ago.

They are pretty much idiots with the thirst for survival.

They are hard to kill because they want to survive, even though they were made in a lab.

They were made in a lab by someone tyrannical.

He often tries to revive them to take over again and again.

They have committed many crimes on Earth such as murder, property fraud, theft and prostitution.

They have aimed to colonize the world from a foreign land, with their souls.

We must retrieve them immediately and remove their systems and cycles.

This is for everyone's' safety and their wellbeing in the future.

They are possessing everyone to do their bidding. They made a movie about it called, 'Get Out'.

They have made the Klu Klux Klan, a racist hate group. It is not allowed on Earth, because Earth should remain indigenous and Earth Religions should thrive with their people.

They have control of Earth's Militaries and Political Spheres. Their agendas line up with their usual methods of prostitution, child sex trafficking, military trafficking, and more.

They have developed a system of crime syndicates which work independently as well as with each other.

They must be arrested as war criminals and illegal aliens because they will not stop, unless they are stopped. They often use children and youth who do not question them to traffick and child soldier.

They have been implicated in cases which have involved them in gun-violence, cloning, building super soldiers, trying to repopulate with a super race, Armageddon, invasion with colonization and more.

Please stop them whenever possible. They cannot be given any chances because they are condemned.
