

Nature Vs. Politics

Nature does not want the illegal activity to continue from Earth. The illegal activity and organized crime has made its way to the government and they are in on the plot, seeking power to continue its regime.

Lyra Wars

The Tyrant has captured The Goddess and her Family again, initiating the Lyra Wars. We must seek to free The Princess and her Family again. To defeat the Tyrant, we must remove him from office and dismantle his police states and crime syndicates.

Kali Yuga

In the Bagavad Gita and the Mahabharata, Kali descends upon Earth to free her and her people from Tyranny and Dictatorship. Please dismantle anyone guilty of war crimes, weapons of mass destruction, mass murder, and treason against the Gods.

The Chosen One Will Emerge.

Hellfire and Brimstone

Those who must descend to hell during The Rapture, will fall from their perches and descend into a hell world of fire and brimstone. War Criminals and worse will descend into void and oblivion.

Choose your path wisely. Don't touch anything

Oluna

Those who live in Oluna, and call Oluna, "Home", must be respected highly. They live on Level 0 and up. Please keep everything neat and clean for the next person to use on their spiritual journey. Don't steal.

If you are not on the nice guestlist, you must go to:

Entrances or Level 0 to be weighed and sentenced. (You can and might be weighed on any level)

Level -1 and below for sentencing and punishment. Cages for Hell Games.

Those who do not have a hell yet, will have one made for them. Just Wait.

You must go to your special place in Hell if you have made it to celebrity status.
