Spiritual Warfare: Enemies from Hell

Hell

Hell is nothing more than just the place that you will go if you are found guilty and thus, not good enough to get to Heaven or the Afterlife. Hell itself is not the enemy, but you might find many enemies in Hell. Please know this is where we punish people, so if you find yourself in Hell, you are probably there to be punished until you become a good person. Please know that you will be assigned a cell and a punishment schedule. You will not be given much and all will be taken away.

Demons

The demonic energies of the war are being pushed to Hell. Please join us in doing so, as they are attacking the angelic realms.

Lies

What you believe will either serve you or not. Please believe in the truth only and you will be fine. If you choose to believe the lies of the tyrant, you will fall to punishment when you cross the line.

Satan

Satan is not allowed to be a God because his lies are too hard to decipher. Please do not follow him into Hell. He is not supposed to be listened to. He often steals and impregnates girls, and has caused a huge snafu internationally and intergalactically as he has worked with his associates to cause a Liandan baby boom.

Liandan

Liandan are a rogue military group that often follow the Tyrant. They are also known as the “infantry that fuck and kill too much”. This is a pretty direct translation of what Liandan means. They often rape and pillage and we have been experiencing their repetitive patterns from the hundreds of millions of years of warfare that they have plunged the Universe into.

Tyranny

Please do not let worlds fall to tyranny. They are supposed to be God’s Gardens of Freedom.

The Team

The Team frequently plunges The Goddess into darkness. They are a dangerous team of illegitimate rulers. Please send the Gods and animals back to Oluna every time they get lost.

Goddor

This person is a tyrant from another planet. He plunges places into darkness frequently.
