### Conspiracies

#### **The Divine Couple**

The divine couple was supposed to meet and fall in love and start a family during the twin flame reunion of 2020. They were separated the entire time, and did not fall in love. They have thus started families separately and cannot come together due to the orders, fraternities and secret societies.

#### **The Lyra Wars**

This is a space war which has lasted millions of years. They are trying to find the divine couple in order to put them together so that peace can ensue for millennia forward.

#### **Reptilians**

We must make sure that we protect our way of life at all costs. Please know that there are many reptilian tribes. There are about 20 and some of them are our allies. Some of them have very evil people in them which keep reincarnating together. They have reincarnated on Earth and are hiding in plain sight. Please be sure to know who is evil and who is not by familiarizing yourself with their tribes and people. They are generally very nice, but they are in the middle of an update which will make them more human and loving. Thank you.

#### **Arcturus**

Arcturus have been long standing spiritual allies of Earth. They must be respected at all times because they are very spiritual and are keepers on high counsels. Please make sure

that you do not disrespect them at all. Please protect them, their planets and constellation, Orion. They must be held with the highest regard because if we protect them physically, they will protect us spiritually.

### **High Councils**

Please know that you cannot ask to be on a high council. If you are right for the job we will recommend you. If you are military, you will probably not be recommended. If you are a peaceful sage, you will probably ascend in your role.

### **The Pleiades**

The Pleiades was attacked by Heinz. Please know, he is no longer an ally of ours. The Pleiades is another longstanding ally of ours. Please be respectful to them, we are not allowed to attack because they are spiritual regulators, and we will devolve as a society again if anything happens to them.

### **Mars**

Mars has been at war with Earth for a very long time. We are very destructive and have caused much turmoil on their planet. They are recovering after a long war and do not want to make contact with us. Please know that you cannot go there without the proper documentation written by The Owners of Mars, The Queen, The Goddess and God.

### **Venus**

Venus is a sister planet of Earth's. She is a free place where the feminine can be enlightened. She is a divine planet and we must make sure that we keep her happy and healthy at all times. She is the home of the Divine Feminine and we must make sure that they are safe at all times. Similarly to Mars, we have been at war with her and we are not allowed to be. You must make sure that you have the proper documentation from the owners at all times. The Queen, The Goddess and God must agree that you are allowed to go.

### **Earth**

Earth, also known as The Green Planet, also known as The Blue Planet, also known as Gaia is our home. We must protect her because there is only one planet like her with the perfect breathing atmosphere for Earth Humans. We must make sure that we do not go extinct. This is because we are in the middle of a reincarnation story where the Goddess has reincarnated on Earth and we are a sacred planet. We must make sure that the planet is protect because it is home to many sacred sites which help with regulating The Universe.
