January 2024

On December 21st we had a good time caroling on the island. Thanks to everyone who came out and braved the COLD!

Thank you to Roger Thornton for restoring the signs with the guidance of John Lauzon. They look great again!

There was an email sent out by one of our members about a discrepancy in the vote count. At the last annual meeting there was a mistake of one vote in favor of mail in ballots, which should have been against mail in ballots. The majority was determined by this one vote. Because we had announced that it passed in the meeting, we researched implementing mail in voting. According to Mississippi law you can only have mail in ballots when you do not have in-person meetings.

The other concern was about what information the lot owners must fill in on the proxies. If you look at the proxy you received this week from Coahoma Electric Power Association, it states that only the member's signature and date are required. It also encourages you to send in your proxy to a board member if you are unable to attend. This individual has threatened to sue the association to change these common practices.

Board Meeting

The next board meeting will be February 11th at 6:30 pm at the clubhouse. If you have anything to present to the board, or want to voice an opinion about anything on the agenda please plan on attending.

Welcome Letter

We only received one response to the request for pets to be confirmed or added on our website. We did not receive any feedback about recommended services. Due to lack of interest, I am removing those outdated pages from our web site.
