

Notice for the expiration of CEC listing (IEC 61215:2016)

21st Jan, 2025

Dear partners,

Please note that this is an official notification clarifying the changes to the current CEC listing of the **IEC 61215:2016** certification.

CEC listing for **IEC 61215:2016** certification, referred to in this article as CEC (2016)

According to the notice of the CEC in 2024, the CEC (2016) should expire on 30th Sept 2024, but in consideration of the stability of our contract with our partners in the Australian market, the CEC (2016) of Astronergy has been extended to March 31st, 2025.

Because of the importance of the CEC listing, we are giving you advance notice of the certification expiry.

All modules for the CEC (2016) installation and grid connection must be installed and connected before March 31, 2025, and the subsidy (STC) application must be submitted.

Please note that after CEC (2016) expires, grid-connected subsidies (STC rebate) will not be available.

Please arrange your products in advance.

In that case, we cannot be responsible for the consequences of any installation and grid connection subsidy (STC) application if actions are not taken before the expiry.

Please refer to Annex 1 for a list of products that will fail.

Annex 1

Model Number 1	Manufacturer 1	Enhanced Listing 1	Approved Date 1	Expiry Date 1
CHSM54M-HC-415	Chint New Energy Technology Co Ltd		21-10-2022	31-03-2025
