

The Story of **THE TIME THIEF** *A Music Memoir By Angie Haze*

The Story of The Time Thief is a multimedia **Music Memoir Project** that transforms the personal journey of Award Winning Music Artist & Producer, Angie Haze as a survivor of sexual abuse into a powerful narrative of **heroism and resilience**. Through storytelling, original music, and visual elements, this project aims to **inspire, empower, and heal** those who have faced trauma- helping them recognize their own strength and reclaim their stolen time.

"I'm not here to tell you a story about surviving. I'm here to tell you a story about remembering. Remembering before and beyond the surviving. Remembering who and what you really are... The one who was always there- holding you." - Angie Haze

This project is more than just Haze's personal story- it's a **philosophy**- a reclamation of stolen time, and a restoration of hope once dimmed by trauma. It is the transformation of her survivor story, not from victim to survivor, but from survivor to becoming the **hero** she had always searched for.
