

PROJECT COMPONENTS

1. Video Series

A cinematic storytelling experience that blends narrative, music, and visuals to bring *The Story of The Time Thief* to life. Chapter 1 is the starting point, introducing the core themes and setting the foundation for the full series.

2. Audiobook & Soundtrack

A musical and spoken-word journey that immerses listeners in the heart of the story. Each chapter will be accompanied by an original soundtrack, allowing the audience to feel the depth of the emotions and transformation.

3. Podcast

A platform to bring awareness about sexual abuse and violence within our society today; and encourage conversations about **trauma, healing, and self-discovery**. Through interviews, personal reflections, and music, the podcast will expand on the themes explored in the video series and audiobook.
