

Monday nights
As above, so within
January 4th to March 22nd

*Like the moon reflects the sun,
You and I reflect each one,
There are forces that cannot hide
They're inside us to remind us to free*

Jeffrey Alphonso Mooney

Twelve weeks to meet 11 Planets, one at a time - The first class will be an overview (or review) of astrology and an introduction of the tools and information that accompany the class. The following 11 weeks will introduce each planet individually. What do the planetary forces invoke in you?

This class will invite you to integrate information about the planet, feel its calling with you, and see what it has to say about you by sign and house position in your chart. Beginning with the Sun and ending with Chiron, through myth and astrological wisdom, we invite you to explore the universe within you.

Offered via Zoom. Monday nights 7 to 9:00 Central Time

**Each class will offer original material, PowerPoint presentation,
and time to explore your own chart and the mysteries you find there.**

This 12-week series is \$240. Or... \$80 per month. Limited to 12 participants
