

Dear District 11 Families,

Over the next week as we adjust to the at-home learning environments, we want to communicate that our primary objective is to ensure that remote online learning will be accessible, practical, and provide continuity of instruction for students at each grade level. Our plan is to take advantage of the digital and non-digital tools that are already familiar to teachers and students. Schools and teachers will be working directly with you and your children during the time away from their school buildings. We are sharing some additional resources below for students across all grade levels.

We recognize that the extended closure of our schools and the transition to online learning district-wide will disrupt our usual every day routines. Please be sure to look for updates from our District and schools. We appreciate the continued professionalism of our teachers, as it is what makes District 11 amazing. Our team is working together to make sure our school communities stay healthy and children are well supported.
