

SHOULD I DIVERT AND LAND?

How do I keep my team safe?

What should I study?

How do I handle this relationship?

Is this the best operational decision?

A better decision-making method for use in any complex environment

JULIUS CAESAR HAD A DECISION TO MAKE:

...disband his legions before crossing the Rubicon river, or defy the Roman Senate and keep the Army intact. Doing this would be seen as an act of war against Rome.

Leading his troops he ordered them to march towards Rome.

He had decided to "cross the Rubicon". This is now a phrase used to denote a point of no return decision. Caesar's decision was the beginning of the end for the Roman Republic, but it would set the scene for the birth of the Roman Empire. A decision that had lasting and positive effects for the entire world and its subsequent history, to this day!

Your decisions may not have an impact on the world like Caesar's, but they WILL have an impact on your little part of the world, and those people who may rely on you. That's why it's important to understand how to make decisions, what can hinder it, and how to improve it.

SPARROWCALL® is not hard to learn, but it does take a little practice to master. However, if you learn its technique, I guarantee you will increase the quality of your decisions, reduce anxiety and make significant progress towards success.

The SPARROWCALL® decision-making technique takes the best decision-making methods and creates a newer, more complete and thorough methodology to make decisions and to solve problems in your professional and personal lives. The aims of SPARROWCALL® decision-making are to:

It's just a matter of looking at it from a different perspective... and IPAS will show you how.

- Derive a solution to a problem
- Reduce stress and improve decisions
- Provide a useful roadmap towards achieving any attainable objective
- Give team leaders greater confidence
- Help manage teams and projects
- Return control to situations marked by chaos and uncertainty.

The next SPARROWCALL workshop or presentation will be held at:
