major steps in the restoration of a collector vehicle. Presentation will be accomplished through display of the vehicle components comprising each step, as well as the equipment, tools and procedures involved in the restoration process. The museum is delighted to add this step in the education process. We look forward to seeing you and encourage you to spread the word that....America On Wheels is truly a trip worth taking!

Linda Merkel, Executive Director

Development of the Mustang began in the early 1960s as the brainchild of Allentown native Lee Iacocca, who was then vice president and general manager of Ford. He wanted to develop an affordable American sports coupe aimed at
