

January 2, 2026

List highlights of what is new with your cabinet service since our October 27th meeting.

Global Extension Team: Since our last meeting, the Global Extension Team has been exploring new and creative ways to get people excited about becoming Lions. We are focusing on outreach that highlights both the social and service sides of Lionism. One initiative we are planning is an informal informational night at a local brewery, designed as a social event that also includes a hands-on service project to help engage potential members.

List what your cabinet service is planning during the upcoming year.

We are also reviewing areas within the district where no clubs currently exist and discussing future opportunities for extension in those communities. In addition, we continue to work closely on the joint “together” club initiative. The GET team remains focused on innovative outreach and sustainable membership growth.
