# Nigerian Partnership

## Ministry Focus:

The North Alabama Annual Conference of the Global Methodist Church has partnered with two annual conferences in Nigeria to help them administratively transition from our previous denomination.

Also, we are helping support a large school system called Ethel Johnson, a large hospital with 15 rural clinics, an extensive agricultural program, and providing reliable internet access across the conference for pastors and leaders. These are just a few of the ministries currently in place.

A bit of history is helpful as you give and pray. In our previous denomination these annual conferences, as were most international conferences, were fully funded by the US conferences. This led to massive corruption and mismanagement of funds. In Africa especially, there are very little local funds available. Our goal in the

North Alabama Annual Conference of the Global Methodist Church

GMC is to help every international conference become administratively self-sufficient, even in Africa. All the conferences in the partnership have agreed to a 5-year declining support scale. After that, we will be able to fully support their on the ground ministries which will always be a need. The

African churches do not have the capacity to fund the ministries to simply sustain life.

## Prayer Needs:

- Tribal and Islamic conflict will cease in Africa.
- Conflict between the GMC and UMC will be solved.
- Funds will be distributed with integrity and accountability.
- Ministry needs will be met.
- Funds for training pastors and church leaders.
