Cat® Electric Power

YOU BRING THE HOPE. WE BRING THE POWER.

You need power every day, around the clock, to continue healing and offering hope. Critical patients rely on heart monitors, ventilators, and oxygen supplies to stay alive. It is imperative that your facility has backup and standby power you can trust.

Some of the world's largest hospitals trust Cat® generators to build confidence in the consistency and continuity of quality patient care. And when you're more confident, your patients are more hopeful.

That's powerful. Insist on Cat® power systems.

ROBINS & MORTON

Founded in 1946, Robins & Morton is a privately held construction firm committed to making a lasting impact on the people and companies we partner with. We have completed over \$2.5 billion in projects throughout the State of North Carolina. These projects vary from major new hospitals and complex renovations, to hospitality projects and a variety of other commercial work.
