Red Cross Helene

Our thoughts and prayers continue to be with all those impacted in Western North Carolina by Hurricane Helene, but especially our NCHEA District 1 Members and Associates. At this time, the best way to help is to an established organization, like the Red Cross, that has already set up ways you can donate.

EMAILS CHANGING

Effective SEPTEMBER 1, 2024 all NCHEA GMAILS will be changing. UP-DATE YOUR CONTACT LISTS!

By NOVEMBER 1, 2024, we will no longer monitor or forward the old Gmail addresses. Switching to the new emails is in part to help with security and ease of access via outlook for our planning team.

Sustainability Liaison Report

What is keeping you from Benchmarking your Energy Data???

Michael D Roberts PE CHFM SrHE SASHE
Director, Corporate Energy Services
Atrium Health | Charlotte, NC
NCHEA Sustainability Liaison to ASHE
Michael.D.Roberts@atriumhealth.org

While plan operations departments consistently benchmark all kinds of stat – FTEs, contract cost, total budget, etc., benchmarking data is often left out. Why is that – because it isn't asked for? Are you prepared if it is?? Both the ASHE Energy to Care and the EPA's Energy Star programs have tools and dashboards to track energy and water data for FREE! Energy to Care has easy to follow instructions - www.ashe.org/energytocare. Simply input your facilities square-foot area and then enter energy data monthly and you are on your way! If NCHEA was to offer a program to assist you with this, what would you like to see / how would you like the program to work? How can NCHEA help you in this?
