

*"AMP's hunting lease service has been extremely valuable to our organization and clients.*

*Through their hands-on approach, they increased realized revenue within the first year in their program on the 150,000+ acres they currently manage for us. Additionally, their excellent communication and record keeping has decreased our organization's time and effort generally committed to hunt lease administration."*

## MISSION

Our mission at Asset Management Partners, Inc (AMP) is to provide our customers with the highest quality customer service, market share enhancement, and value-added revenue management in the natural resource industry.

**We focus on your recreational lease customers so that you don't have to!**

## BENEFITS

- Increase your revenue
- Lower your exposure
- Eliminate your overhead

### TOTAL ACREAGE GUARANTEE

AMP can guarantee lease rates on every leasable acre in your land base. You will receive an annual lump sum payment at the beginning of each lease year, rather than multiple transactions for each hunt club.

## SERVICES

AMP currently manages over 350K acres across the Southeastern US for clients ranging from small family landowners to large Timberland Investment Management Organizations (TIMOs).

Whether you are a large or small landowner, our experienced staff can evaluate your property and offer you a guaranteed hunting lease rate or customized service program to fit your requirements.
