Notice Regarding Locked Gates on Leased Lands

To the Anton Chico Land Grant Heirs:

Subject: Locked Gates on Leased Lands

Dear Heirs,

This letter is to address the issue of locked gates on lands leased from the Anton Chico Land Grant.

As provided by the Land Grant bylaws, **all gates on leased lands are to remain unlocked**. This requirement is important to ensure that authorized land users, leaseholders, heirs, and others with legitimate access are able to enter and use the leased lands without unnecessary obstruction.

We have become aware that certain gates are being locked. We respectfully request that all locked gates on leased lands be unlocked and that all gates remain unlocked in accordance with the bylaws.

Please ensure that anyone responsible for maintaining or accessing these gates is made aware of this requirement. Compliance with the bylaws helps protect the access rights of the heirs and leaseholders and helps prevent unnecessary disputes concerning access to Grant lands.

We appreciate everyone's cooperation in following the Land Grant bylaws and maintaining proper access to the leased properties.

Respectfully,

Anton Chico Land Grant Board of Trustees
