Meet Gretel! Just like her fairy-tale namesake, this 9 week old pup is ready to begin her own adventure... only this time, she's looking for a forever home (no gingerbread houses required!)

This little love came to us with her brother, Hansel and is likely a littermate of our boy, Lucky!

Gretel is learning all the puppy basics and is doing great with her potty training and kennel training! She's outgoing and loves playing with her bro, but is always up for cuddles when playtime is over!

If you're looking for a loyal little sidekick with a touch of storybook charm, Gretel could be your perfect match!
