

MEET ARGO

Breed: Shepherd/Great Pyrenees/Akita mix

Training: Argo is fully house-trained—he even rings a bell to ask to go outside! He’s also kennel-trained and walks well on a leash.

Good With:

- Dogs: Yes! He gets along with most dogs, especially larger ones.
- Cats: Did well with the indoor cats in his foster home for a long time, but has recently started to get rough with the outdoor cats, so a home with no cats would be best.
- Kids: Very Good!:)

Personality: Argo has come a long way after being rescued from extreme neglect. He was never allowed indoors and often didn’t know when he’d eat again. Despite his past, he’s incredibly affectionate and eager to please. He’s still polishing up his manners but has a sweet and gentle heart.

Medical Info: Neutered and fully vaccinated.

Sex: Male

Age: 1 year and 8 months
