

# MEET TIMMY

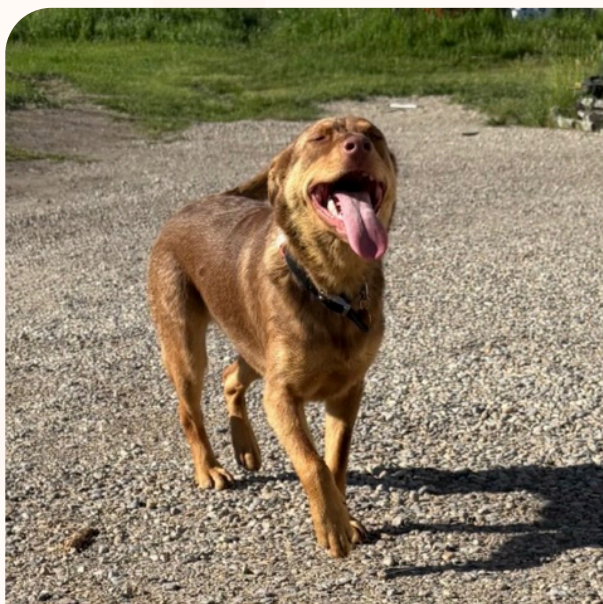

Sex: Male

Age: approx. 11 months old

Husky/Retriever mix

Meet the very happy Timmy! This cute guy came to us from Saskatchewan where he was initially living as a stray with his siblings Joey, Phoebe and Jed. He's been doing great in his foster care and is ready for a home to call his own!

- House-trained and doing well on leash
- Doing well with other dogs, cats, horses and kids
- Health-checked, vaccinated, microchipped

## From her foster:

Timmy loves love! He is a true family dog who enjoys spending time with his people both indoors and outdoors. He's a real homebody and tends to stay close to home—even on our acreage. Timmy is good with kids but still needs a bit of time to feel comfortable in high-energy situations.

He walks great on leash, but can get a little nervous in new surroundings, especially if they're noisy. He looks to his handler for reassurance in situations he's uncertain of.

Timmy is very comfortable in his crate and will often put himself inside when he wants to sleep or needs some quiet time. He has been respectful around our cat and horses. While meeting new dogs can be a bit stressful for Timmy, he responds well when introductions are calm and respectful. He enjoys playing with our high-energy female dog now that he knows she isn't aggressive, so that first meeting really matters.
