Meet the sweet and snuggly Rosie! She came to us with her 6 siblings from our rescue partner in Saskatchewan. Rosie is a quiet and loving pup that would make a fantastic addition to any family

- Loves other dogs
- Social with cats
- Fantastic with people and kids!!
- Vet checked, microchipped and up to date on vaccines and deworming

## From her foster:

Rosey is a soft soul with the sweetest personality. A little shy at first, she quickly warms up into the most devoted cuddle buddy. She's the kind of pup who melts into your lap and gently reminds you to slow down and soak up the quiet moments.

She is unbothered by cats, great with kids. Rosey loves soft voices, gentle hands, and curling up for a nap near her people. She gets along wonderfully with dogs and would thrive in a calm, loving home where she can blossom at her own pace.
