

MEET ROSS

Sex: Male

Age: approx. 8 weeks old

Likely Husky/Collie/Pyrenees mix

Ross came to us with his 6 siblings from our rescue partner in Saskatchewan. This boy lives for love, he adores kids, thrives around other dogs, and wants nothing more than to be close to his people

- Loves other dogs
- Social with cats
- Fantastic with people and kids!!
- Vet checked, microchipped and up to date on vaccines and deworming

From her foster:

Ross is a joyful, affectionate little guy with a Huge heart and a big voice when he's excited (especially at mealtime or when you're just out of reach!).

Ross is great with cats, kids, dogs and has started potty training, which is going really well. He's playful, cuddly, and would do best in a home with kids or another dog to keep him company and help him feel secure.

If you're looking for a shadow with a tail and a whole lot of love (plus some hilariously dramatic howls), Ross is your boy!
