

KIWI

Sex: Male
DOB: April 8, 2026

Heeler/Shepherd mix

(best guess, likely to be medium-large when grown)

- Doing well with crate training, sleeps through night
- Smart, eager to learn, and already mastering basic commands
- Great with kids and other dogs
- Health-checked, vaccinated, dewormed, microchipped

This handsome boy has been busy growing up in foster care and continues to impress everyone he meets. He sleeps through the night in his crate, settles nicely when he needs some downtime during the day, and is making great progress with his potty training.

Kiwi loves getting out for walks. When it's just him and his person, he's a dream on leash and happily trots along taking in the sights.

He's doing wonderfully with his training too. He's pretty much mastered "sit" and is catching on quickly to "come." Kiwi enjoys learning new things and loves working alongside his people.

He gets along beautifully with kids and other dogs, and has been learning the ropes from his canine foster sister, Rosie. Kiwi listens respectfully when she lets him know the rules and takes her corrections in stride.

Watching Kiwi grow from a tiny puppy into the sweet, smart, and affectionate boy he is today has been incredibly special. While all of his siblings have already found their families, Kiwi is still waiting for his own.

This special boy has so much love to give, and we know there's a lucky family out there who will be grateful they chose him!
