

BLUE

Lab mix (best guess)

Sex: Female

Age: 2 years

approx. as of July 19, 2026

- Affectionate companion
- Excellent house manners
- Enjoys walks and quiet afternoons
- Health-checked, vaccinated, dewormed, microchipped

Blue is still patiently waiting for the family she's been dreaming of, and we know they're out there.

Sweet Blue has settled well into foster care and has shown just how lovely of a companion she is. Blue loves spending quiet afternoons relaxing on the deck, watching the world go by, and is happiest being close to the people she loves.

Her foster says she has wonderful manners. She takes treats gently, waits patiently for her meals until she's given the cue, and is fully house-trained, quietly waiting by the door when she needs to go outside. She enjoys little bursts of play before curling up for a nap, giving her the perfect balance of playful and easygoing!

Blue is affectionate, eager to please, and responds very well to guidance. She can pull a little on leash when she's excited, but she's doing great with her training and continues to make wonderful progress.

While cats aren't her thing, she may do well with a larger, respectful canine companion.

Blue has been waiting far longer than a dog like her should have to. Somewhere out there is someone who's been looking for a calm, affectionate companion to share life's simple moments with. We have a feeling Blue has been waiting for them, too.

If Blue sounds like the missing piece in your family, we'd love to hear from you.
