- Sleeps peacefully in her kennel overnight
- Health-checked, vaccinated, dewormed, microchipped, spayed

Sex: Female

Age: 2 years

approx. as of July 27, 2026

Meet Talia!

This beautiful girl made the journey to us from the Northwest Territories, and now she's ready for the best part of her story... finding a family of her very own!

Talia is a sweet, social girl who loves being part of the action. She's been wonderful with the dogs she's met in foster care and gets especially excited when she spots a new canine friend while out on her walks.

She also loves kids but can be a bit enthusiastic with her affection and is still working on keeping all four paws on the floor when she gets excited. A home with older children who can comfortably reinforce her manners would be the best fit.

At the end of the day, Talia is happiest tucked into her kennel for the night. Having her own cozy space helps her settle beautifully, and once she's in, she sleeps peacefully until morning!

Talia is looking for a cat-free home. While she hasn't shown much interest in smaller animals while out on leash, based on what we've learned about her, we feel a home without cats will be the best fit.

As a Husky/Shepherd mix, Talia would love a family who understands intelligent, active breeds and is ready to continue providing her with structure, exercise and guidance. She has so much love to give and deserves a family who will be just as excited to choose her as she will be to choose them!

After travelling all the way from the NWT and settling into a whole new world, we'd love nothing more than to see this special girl find the amazing forever home she deserves!
