- Good with dogs, kids, and respectful with cats
- House trained, settles well with routine, knows basic cues and eager to learn
- Energetic, affectionate, and fun loving
- Health-checked, vaccinated, dewormed, microchipped

Oreo first came to us in April and has recently made his way back into our care through no fault of his own. He is now ready for a fresh start and a family excited to help him continue growing!

Oreo is a young, active guy who thrives with structure and consistency. He's happy, loving, and always thrilled to see his people! Sometimes a little too enthusiastic, but with calm guidance, he quickly learns to keep all four paws on the floor! In the home, he does great with gentle reminders and clear expectations.

On walks, Oreo has made great progress and is learning to walk nicely on a regular leash. Loose leash walking and recall are still a work in progress, but he is responsive and eager to please! Regular exercise and mental enrichment have made a huge difference and help him stay focused and content.

This sweet boy is looking for an active home ready for daily exercise, continued training, and lots of love! He's silly in the best way and will keep his forever family laughing! In return, he offers loyalty, affection, and a whole lot of personality!
