

TIKKA

Pomeranian / Heeler mix

Sex: Female

Age: 2 years old

- Loyal and deeply attached to her person once trust is built
- Very intelligent and loves learning tricks
- House-trained and sleeps through the night
- Health-checked, vaccinated, dewormed, microchipped, spayed

Tikka is a smart, spicy little girl looking for a very specific kind of home. She has come back into our care twice, and while that hasn't been easy for her, it's helped us better understand exactly what she needs to truly thrive!

Small in size but mighty in personality, Tikka has the spicy spirit of a heeler packed into a Pomeranian-sized body. She's affectionate on her own terms, but once she trusts, she is deeply loyal and devoted. She does best when her space and boundaries are respected.

Tikka is seeking an experienced adopter who can meet her where she's at. She has a history of biting when her boundaries were pushed, so consistency, supervision, and respectful handling are essential. When she feels safe and understood, she forms a strong bond with her person. 💙

She does best with larger, confident dogs who can set clear boundaries and help keep her balanced. Dogs who communicate clearly and don't allow her to push limits are ideal. If there are kids in the home, they should be older and experienced with dog boundaries.

Tikka will need continued work on leash manners, but she is smart and very trainable with someone willing to invest the time and build trust at her pace.

Tikka isn't for everyone, and that's okay! She's waiting for someone who sees her potential and is ready to offer patience, understanding, and consistency. In the right home, Tikka will finally be able to feel at ease and shine as the loyal companion she's meant to be!
