Sex: Female
Age: 7 months

- Affectionate and loves being close to her people
- Great with kids and cats
- Playful, energetic, and full of classic Shepherd personality
- Health-checked, vaccinated, dewormed, microchipped

Meet Lulu!

Lulu is a beautiful 7-month-old German Shepherd, born January 23rd, and she is the sweetest classic Shepherd puppy you could ask for.

She is incredibly affectionate and loves nothing more than being close to her people. Lulu is a big cuddle bug, loves attention, and has a very sweet, loving personality.

She has been around both cats and children and does wonderfully with both. She enjoys being part of the family and is happiest when she can be involved in whatever her people are doing.

Like any 7-month-old Shepherd, Lulu is still very much a puppy! She can be rambunctious, energetic, playful, and occasionally a little mischievous. She will need a family who understands the puppy and teenage stages and is willing to continue her training while providing plenty of exercise, structure, and mental stimulation.

Lulu lacked some important socialization early in life, so she can sometimes be vocal or unsure in new situations. With patience, consistency, positive experiences, and continued socialization, we believe she has so much potential to grow into a confident adult Shepherd.

Lulu is looking for a forever family who will give her the patience, guidance, structure, and love she deserves.

If you're looking for a sweet, affectionate, goofy German Shepherd who wants to be your best friend and cuddle up with you after a day of adventures, Lulu may be your girl!
