- Great with other dogs, loves meeting new friends
- Sleeps through the night in his crate
- Walks very well on leash
- Health-checked, vaccinated, dewormed, microchipped

Sex: Male

DOB: June 19, 2026

And then there was one...

Tommy is officially the last of our Jeans Litter still searching for his forever home!

This sweet boy has been doing so well in foster care. He sleeps through the night in his crate, is already an awesome little walking buddy, and loves getting out to explore and meet other dogs along the way.

Tommy has the perfect mix of goofy puppy energy and a surprisingly good off switch. He's always up for some fun, but he's just as happy hanging out with his people when it's time to relax. He loves other dogs and would thrive with a canine companion.

Food is pretty much his entire world, which makes him very motivated when it comes to training. He's still working on some classic puppy manners, including learning what those little puppy teeth are and aren't meant for... but with an adorable face like his, who can blame him?!

One by one, Tommy has watched all of his Jeans Litter siblings head off to their new homes. Now we'd love nothing more than to find the family waiting for him too!
