

SPOOKY BEAR

Mixed Breed

- Incredibly smart and eager to learn
- Dog-social and playful
- Sweet and affectionate once comfortable
- House-trained, sleeps through the night
- Health-checked, vaccinated, dewormed, microchipped, spayed

Sex: Female
DOB: October 4th, 2024

After coming back to us 4 months ago, Spooky Bear has been in the loving care of our very own Bailey and has made incredible progress. It's her time to find her forever home, and who better to tell her story than the person who knows her best!

From Bailey:

Spooky Bear is an exceptionally intelligent, resilient, and thoughtful dog. She's very willing to learn and catches on quickly. Her energy and mental stimulation needs are on the medium to high end, and she would do very well dabbling in dog sports. She has even done a little dog sledding and scootering!

She knows tons of tricks and has good recall and leash skills. She is 100% potty trained and will boop the door when she needs out. She is crate trained, has begun muzzle training, and is trained to walk on a slatmill or treadmill.

Spooky absolutely adores other dogs and learns by watching and copying them. She would thrive with a confident, playful dog who can help guide her and set boundaries with a pushy adolescent. She has met dogs of all sizes and temperaments and gets along great with everyone.

Due to a lack of socialization in her first year, Spooky can be suspicious of strangers and needs low-pressure introductions to warm up at her own pace. It will likely take 2 to 3 meet and greets, and I am more than willing to accommodate this to set her up for success.

Once Spooky is comfortable, she is incredibly sweet and loving. She loves kisses, belly rubs, and being close to her person. She's tolerant of grooming and amazing for nail trims!

I would love nothing more than to see Spooky go to someone who can see her potential. She is a really cool dog and has truly been a pleasure for me to foster!
