

XYLA

Sex: Female

Age: 4 months

(as of Feb 4, 2026)

Border Collie mix

(best guess - currently 26lbs, expected to be medium-large)

- Sweet, affectionate, and incredibly smart
- House trained and settles well into routine
- Health-checked, vaccinated, dewormed, microchipped

Xyla is a truly special girl from our X litter who is back in our care and ready to find the family she's been waiting for! She has the kind of temperament that makes people fall in love quickly! Gentle, thoughtful, and eager to connect

She's playful when engaged but has a wonderful off-switch in the house, happily relaxing in her bed or entertaining herself with toys while staying close to her people! Xyla thrives on routine and companionship and forms strong bonds with the humans she trusts

For a pup her age, Xyla already has an impressive training foundation. She knows sit, shake a paw, lay down, stay, leave it, and come, and is currently working on heel! She's food motivated, making training fun and rewarding, and has so much potential for a family excited to keep building on everything she's already learned. At night, she settles beautifully and enjoys sleeping in her crate with the door open, especially when her people are nearby!

This sweet, intelligent girl is going to absolutely shine in a home that values connection, consistency, and lots of cuddle time! If this sounds like you, Xyla just might be your perfect match!
